

Solange Valverde

Designer + Programmer

About

I'm a Developer and Designer based in Vancouver Island. While I really enjoy working on Web Dev, I love just as much being a Graphic Designer as it allows my creativity run wild. I geek over fonts and games. When not coding, designing or gaming, I am most likely be doing some DIY or focusing on my current hyperfixation.

Education

Sept. 2014 - Dec. 2019

Job Experiences

Empress Avenue Media

Apr. 2019 - Jul. 2019

Website Dev., Social Media Manager & Graphic Designer

Designed the website layout, creating it on a blank Wordpress template. Was responsible for all wireframes and UX/UI experience. I was also responsible for enhancing photos taken before publishing them. As the graphic designer and social media manager I was able to create graphics for our social media that reflected our goals and projects to help our online presence growth.

Alpha Pi Phi Sorority

Mar. 2019 - Jul. 2019

Website Designer & Developer

Designed the website using wireframes and mock up versions. Created it on Wix from scratch. As the sole developer, I was responsible for making, obtaining and editing all images before they were added. Responsible for updating the website every 4 months or when needed.

Alpha Pi Phi Sorority

Jul. 2017 - Apr. 2018

Public Relations & Graphic Designer

Designed graphics for their social media and events. Was responsible for keeping all their social media updated and creating the necessary graphics. Created designs for print media such as tickets, physical banners and more.

Co-Lab Peru

Aug. 2016 - Jan. 2017

Website Developer & Graphic Designer

Created a child template for Wordpress, as well as designing entire website layout. Designed icons and graphics for website as well. Was responsible for creating wireframes and UX/UI experience. Was also responsible for enhancing photos taken before publishing them. Worked with a small group of people who would give me constant feedback, for a better final version of the website
